

# MEAL<sup>TO</sup>GO

- **Do you have a class during lunch or dinner?**
- **Are you unable to make it to a meal because of a study session or practice?**
- **Would you like to have quiet time in your room to study?**

Meal to-go is made for these circumstances. Every student with a meal plan is given a reusable, to-go container credit at the beginning of the school year. Use your to-go container whenever you want to take a meal to-go. Return it the next time you go to the dining center for a clean one. All meals to-go are deducted from the meal plan.

- Students on a meal plan are eligible for one free meal-to-go container annually.
- The first time you want a container for a meal-to-go, please ask our staff person at the dining center entrance. We will swipe your SUI.D. and give you a meal-to-go container. The swipe will debit your account indicating that you have been given your free container.
- You may use the issued container to take a meal with you from any dining center. The issued container is the **ONLY** acceptable container allowed for a meal-to-go.
- The next time you come back to any dining center, bring your to-go container. We will exchange it for a one that has been cleaned in our high powered, super-sanitizing washers or we can credit your account indicating that you returned the container and are eligible for another free one at another time.
- If you lose your container, there will be a \$3 charge to receive another one.
- This program allows you the flexibility to eat on the run in order to meet the demands of your busy schedule.

# REUSABLE WATER BOTTLES

Every student on north campus and the Skyhalls with a meal plan will receive a **reusable bottle** in their mailbox.

This sustainable bottle gives you the option of taking a drink when leaving the dining center. The bottles may also be used in our cafes and student centers for a **20% discount** on fountain beverages.
